LIFE & STYLE

Sometimes even small accessories help to make your everyday life easier and create joy. Usefulness and design are not contradictory here, but complement each other harmoniously. Enjoy aesthetic accessories every day that accompany you in everyday life, in the office or on the go.

DRINKING CULTURE

Drinking is healthy and purifies the body and soul: a little piece of wellness in everyday life. Aesthetic containers and practical accessories encourage drinking and make preparation a pleasure. Wine in particular requires the right accessories – for correct opening and closing, for suitable temperature control and aeration. Utility and design need not be in conflict, but complement each other harmoniously.

ICE CUBE STONES // GRANITO

Schlussinformationen

1. **Advertising:** We can offer finishing options for all products shown: the advertising options are indicated by symbols next to each item. Detailed information on the individual options can be found on page 2. For data transmission, please be sure to note our instructions at www.druckdaten.net.
2. **Delivery times:** Depending on availability, we will ship your unfinished stock items on the same or next day if possible. Delivery times may be longer before Christmas. Larger quantities may require a longer delivery time, so please plan ahead. For finishing orders, delivery times will be agreed upon depending on printing implementation, approvals, and availability.
3. **Samples:** We are happy to send you samples, but they will be charged and cannot be returned.
4. **Dimensions:** All dimensions are approximate and provided for your reference. Please note that the packaging size may differ from the size of the item depending on the type of packaging.
5. **Gifts:** All offers are hand-delivered gifts. Upon request, we will gladly deliver suitable shipping boxes flat or pack the gifts securely and ready for shipping.
6. **Individual shipping:** We are happy to ship items individually on your behalf. The cost per package, including packaging, postage, and insertion of a (personalized) card provided by you, is available upon request. Addresses must be provided as an Excel file in accordance with our template. You can find this and further information at www.druckdaten.net/Artikel/2V054. Please note that the size of the desired gift must fit the greeting card and shipping labels. Very small gifts may need to be double-packed. This increases the cost of individual shipping.
7. **Product changes:** As we are constantly developing our products, we reserve the right to make changes or adjustments to the packaging and the products. Adjustments may also be made for production reasons. This is not a reason for complaint. If you specify "unchanged re-production" when placing an order, delivery will be made under the current conditions, i.e. any current changes must be accepted.
8. **Printing errors:** Despite frequent checks, printing errors can always occur. If this happens with a prize, the amount originally intended will apply. We will inform you in each individual case.
9. **Liability for defects:** If you have cause for complaint, we require proof from you. Obvious defects and transport losses/damage must be confirmed immediately by the delivering carrier or shipper by means of a damage certificate. In any case, if you make a complaint, we need a photo of the damaged packaging or the damaged item so that we can process the complaint promptly and, if necessary, provide a replacement. Natural products such as wood or slate always have an individual appearance. Natural variations in the color, size, and texture of the product or the finish applied to it are not grounds for complaint.
10. **Delivery terms:** All prices quoted are net prices in euros plus VAT, ex works. Payment terms: 14 days net.
11. **Retention of title:** The delivered goods remain our property until full payment has been made, even if they are passed on to third parties.
12. **Legal changes:** Should legal changes occur, these shall apply regardless of the catalog term.
13. **Price validity:** The prices printed are generally valid until July 2026. We reserve the right to make adjustments due to unforeseeable price increases. We will be happy to send you a current offer on request or inform you of any changes before accepting your order.
